

Milestone 6

Group: MCSSN-Library Assistant

Members: Skyllar Estill, Molly Iverson, Naomi Dion-Gokan, Sierra Pine, Caitlin Graves

[GitHub Link](#) (We are working in the home-page branch)

Project Description:

Our website assists librarians in managing patron services and a book database and allows patrons to search and check out books. We developed this project using Google Books API and our own SQL database. Our assistant has features such as user registration, book search, wishlist/checked-out material viewing, a quiz, special admin privileges, etc.
